## EMBRAER PHENOM 100 VH-PNM

Based in Melbourne, Australia the Embraer Phenom 100 is the perfect choice for short-haul journeys to remote locations or central hubs. This compact, comfortable aircraft is built for making multi-stop journeys in a single day and opens up access to non-commercial airstrips where many aircraft cannot land.

The Embraer Phenom 100 seats four passengers with ease and everyone enjoys their time on board with light refreshments and hot or cold beverages.

As an IS-BAO Stage 3 Registered Company Revesco Aviation meets stringent standards for Business Aircraft Operations and all flights are tailored to our passenger's schedules with flexibility, safety and security. Operated by one pilot (two can be requested), the Embraer Phenom 100 offers a safe, secure and comfortable choice.
